VOL. 34 NOS. 1,2

MARCH 1993

Feed utilization by the dairy cow over multiple lactations: a review W.H. Broster, V.J. Broster and A.J. Clements (Aberystwyth, UK)	1
Use of test day yields for genetic evaluation of dairy sires and cows E. Ptak and L.R. Schaeffer (Guelph, Ont., Canada)	23
Derivation of economic values for veal, beef and milk production traits using profit equations H. Bekman and J.A.M. Van Arendonk (Wageningen, Netherlands)	35
Maternal effects for growth traits in beef cattle D.F. Waldron, C.A. Morris, R.L. Baker and D.L. Johnson (Hamilton, New Zealand)	57
Dietary supplements of folic acid: blood and growth responses of white veal calves J. Lévesque (Ste-Foy, Qué., Canada), C.L. Girard, J.J. Matte (Lennoxville, Qué., Canada) and G.J. Brisson (Ste-Foy, Qué., Canada)	71
Liveweight, fleece weight and prolificacy of Romney ewes carrying the Inverdale prolificacy gene (<i>FecX¹</i>) located on the X-chromosome G.H. Davis, K.G. Dodds, J.C. McEwan and P.F. Fennessy (Mosgiel, New Zealand)	83
The effect of protein level and source of legume seeds on the growth and fattening of lambs A. Purroy, H. Echaide, F. Muñoz, A. Arana and J.A. Mendizabal (Zaragoza, Spain)	93
Estimated breed additive effects and direct heterosis for growth and carcass traits of heavy pigs G. Bittante, L. Gallo (Padua, Italy) and P. Montobbio (Rome, Italy)	101
Parallel measurements of indole and skatole (3-methylindole) in feces and blood plasma of pigs by HPLC R. Claus, M. Dehnhard, A. Herzog, H. Bernal-Barragan (Stuttgart, Germany) and T. Giménez (Clemson, SC, USA)	115
Energy cost of standing activity in sows J. Noblet, X.S. Shi and S. Dubois (St. Gilles, France)	127
Comparative digestibility of energy and nutrients in growing pigs fed ad libitum and adults sows fed at maintenance J. Noblet and X.S. Shi (St. Gilles, France)	137
Threonine supplementation of low-protein, lysine-supplemented, sorghum-soybean meal diets for growing-finishing pigs T.G. Page, L.L. Southern and K.L. Watkins (Baton Rouge LA, USA)	153
Estimates of genetic parameters for ovulation rate, prenatal survival and litter size in rabbits from an elliptical selection experiment A. Blasco, M.A. Santacreu (Valencia, Spain), R. Thompson and C.S. Haley (Roslin, UK)	163

Susceptibility of clinical mastitis in successive lactations

M.Z. Firat (Balcali, Adana, Turkey) 175

VOL. 33 NOS 3,4

APRIL 1993

Nutritional and antinutritional aspects of soyabean and field pea proteins used in veal calf production: a review

J.P. Lalles (Rennes, France) 181

Estimates of dispersion parameters and of genetic and environmental trends for weaning weight in Angus cattle using a maternal animal model with genetic grouping

R.J.C. Cantet (Capital Federal, Argentina.), D. Gianola, I. Misztal and R.L. Fernando (, USA) 203

Prediction of breeding values and dominance effects from mixed models with approximations of the dominance relationship matrix

K. Johansson, B.W. Kennedy and M. Quinton (Ont., Canada) 213

Effect of herd of origin on central testing station performance in pigs

D. Sorensen (Tjele, Denmark), S. Andersen (Copenhagen, Denmark) and I. Pedersen (Tjele, Denmark) 225

Contribution of the hindgut to digestion of diets in growing pigs and adult sows: effect of diet composition

X.S. Shi and J. Noblet (St. Gilles, France) 237

Influence of lactation length on sow productivity

J.L. Xue, G.D. Dial, W.E. Marsh, P.R. Davies and H.W. Momont (MN, USA) 253

The effect of food intake on prolificacy and plasma progesterone concentrations in multiparous sows

M.A. Varley and G.R. Prime (Leeds, UK) 267

An attempt at measuring health in nucleus and multiplier pig farms

F. Madec, M. Kobisch and Y. Leforban (Ploufragan, France) 281
